

### **Ying-Li (Tommy) Chen – Project Coordinator YPG 2017–2018**

Hi everyone, I'm Tommy Chen from Taiwan and I work in a clinical research organization (CRO) in the United States now. I was a hospital pharmacist before I came to the United States

I started my involvement of public affairs in 2007 when I was elected as the Contact Person of Pharmaceutical Students' Association of Taiwan (PSA-TW) and becoming a board member of Taiwan Young Pharmacists' Group (TYPG) since 2013. I have had the chance to work with Asian young pharmacists during my years in TYPG. All the national and international team work I experienced has been exciting and inspiring. I'm so honored to join the FIP-YPG and looking forward to what we're going to accomplish in the coming year with everyone.
